

SOTERIA ROADMAP

A Timeline to Global Safety

PHASE 1

RESEARCH & PROTOTYPING (COMPLETED)

- Conducted in-depth market research on emergency response gaps.
- Developed a functional prototype with core safety features.
- Planned AI-powered emergency detection and alert system.

PHASE 2

CROWDFUNDING & AWARENESS (ONGOING)

- Launched the GoFundMe campaign to fund full-scale development.
- Building public awareness through social media, influencers, and press.
- Recruiting beta testers to refine features through real-world use.

Q2 - Q3 2025

APP DEVELOPMENT & AI ENHANCEMENT

- Integrating AI-powered emergency detection (weapon detection, screams, distress calls).
- Geofencing alerts to notify users within 200m of an emergency.
- Smartwatch & IoT connectivity for instant emergency activation.

Q4 2025

SECURITY PARTNERSHIPS & PILOT LAUNCH

- Partnering with law enforcement & emergency response teams for faster action.
- Launching a pilot program in key cities for live testing.
- Collecting feedback to optimize performance and user experience.

(2026 & BEYOND)

GLOBAL EXPANSION & FULL DEPLOYMENT

- Expanding nationwide and internationally to protect more lives.
- Upgrading AI with predictive threat detection for even faster responses.
- Introducing Soteria for schools, businesses, and public spaces to enhance community safety.
